Getting Started

Download

</>Setup Buttons

1. Download Buttons a and add files to your website.
2. Add css in the head of your webpage.

```
1. <link href="//netdna.bootstrapcdn.com/font-awesome/4.2.0/css/font-awesome.css" rel="stylesheet">
2. <link rel="stylesheet" href="css/buttons.css">
3. <script src="http://code.jquery.com/jquery-1.10.1.min.js"></script>
4. <script type="text/javascript" src="js/buttons.js"></script>
```

* You only need the font-awesome css if you're using icons

* You only need jquery & buttons.js if you're using dropdown buttons

3. Create buttons in your html.

Customize Buttons

1. Fork or Download a the Buttons project on github.
2. Make sure you have [Sass](#) and [Compass](#) installed.
3. Edit the _options.scss with your own custom values
4. In the root of the Buttons directory type strong compass watch strong on the command line.

Download

B

5. The buttons.css file should now be updated
